March 23, 1993

Prof. R. Cantelli
Università di Roma

Dear Rosario:

Good news! I finally was successful in reaching Prof. Zener, and after some doubts he finally agreed to come to Rome.

Please send material about the conference to him at: Department of Physics,
Carnegie Mellon University
Pittsburgh, PA 15213

Let me caution, however, that he is 86 years old and has recently had some heart troubles. So the possibility exists for him to change his plans.

Yours sincerely,

Arthur

P.S. For my title, consider:

"Early work on dislocations and point defects at low and intermediate frequencies".
